

Don't waste
your waste!

LTR² Technology PCB Transformer and Capacitor Recycling

7-th International Conference Cooperation for Waste Issues
April 7-8, 2010, Kharkiv, Ukraine

Envio Group Activities and Locations

Envio Recycling
Dortmund, Germany
transformer recycling

Envio Korea
Jeonju, South Korea
transformer recycling

Enviso
Barcelona, Spain
Envio group sales hub
for Spain, Latin America

Envio Biogas
Dortmund, Germany
biogas plants, organic
waste elimination, bio-
methane production

Envio Energy
Munyoung, South Korea
biogas plants, elimination
of organic waste

Envio Technology Centre
(„Envio Technologiepark“)

Environmental Services

- Recycling of PCB and non-PCB Transformers
 - disposal / recycling of transformers
 - cleaning of used transformer oil
- Clean-up of contaminated sites
 - development of clean-up concepts
 - site-cleaning, waste disposal
 - dismantling or restoration
- Environmental Consulting
 - inventories of hazardous waste
 - assessment of environmental damage
 - awareness-raising, training

Transformer Recycling Facility, Dortmund

Don't waste
your waste!

Envio's LTR² Technology

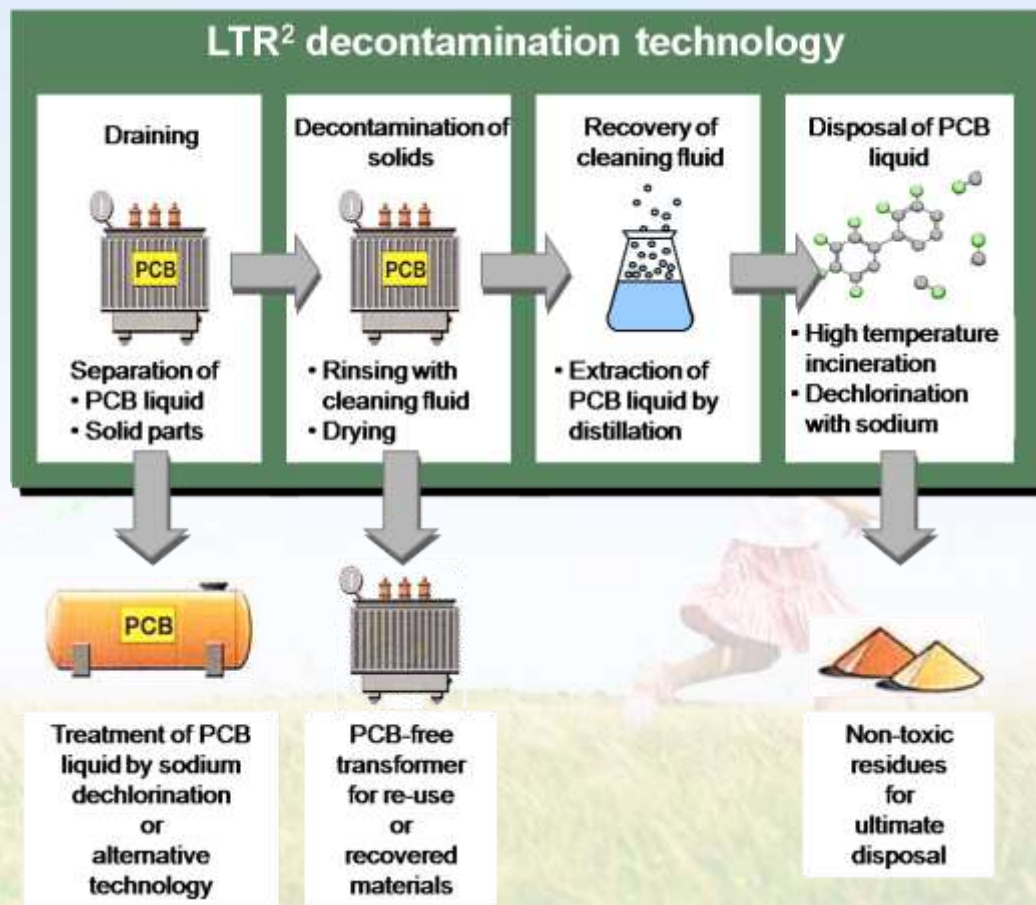

Low Temperature Rinsing and Reuse/Recovery

- The LTR² technology is a well-proven, non-combustion technology capable of decontaminating PCB-containing electrical equipment, PCB liquids and other PCB-containing substances. It's applied in Envio's automated treatment system. The result is 95% transformer weight reclaimed materials.

The LTR² Technology - efficient and safe

Comprehensive and regular certification

ISO 9001

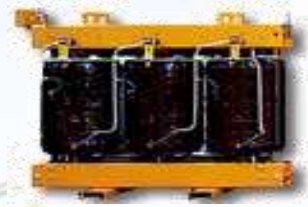

ISO 14001

Specialist Disposal Company

The current version of certificates are available for download on our website www.envio-group.com (“about us” → “certification”)

Envio – your ideal partner for PCB projects

- Comprehensive scope of products and services
 - disposal of PCB equipment
 - decontamination of PCB equipment
 - consulting, technical services
- Reliability
 - certified quality standards
- World-wide project execution
 - local representation
 - authority permits for PCB handling and transport
 - world-wide logistics
